A message from the CEO...

Annual Meeting, what a wonderful night we had celebrating the efforts of 62 years serving our members. The evening was shared with close to 150 people enjoying an awesome meal and dessert that was catered in. The evening included entertainment and our business meeting. We concluded the evening with lots of cash being given away. If you didn't make it plan to attend next year, you will be glad you did.

Spring! Around here we are excited for this season as we are

able to help our members start some new projects or remodel the old, make some new purchases or payoff some old debt. We specialize in Loans and helping our members improve their lives with regard to their finances. Hope you come in to one of the offices and let us help you "bloom" this spring.

Kim Anneler, CEO

March **MILLION** Dollar Special Loan Promotion was as exciting as a nothing but net, game winning, 3-pointer at the buzzer, during the March Madness basketball tournament! We set a goal of financing a MILLION dollars in new loans and we blew that goal off the court well before the buzzer! There are still some members that have been pre-approved looking for the perfect new vehicle, so we will give a final "amount scored" on our Facebook page in mid-April. Thank you to all of you who took part in the promotion by getting your loan on the bracket and allowing Ark Valley Credit Union to help with your financial needs. Be sure to follow us on Facebook, check the marquee and read your statements for information on more special promotions coming throughout the year.

Get Some Cash and Build Credit History

A smart way to borrow money for those extra summertime expenses is with a Share Secured Loan from your credit union. With a secured loan, you'll be using the funds in your share savings account as security/collateral for your loan. In return, you'll benefit from fast loan approval, a competitive low interest rate, and convenient repayment terms. Plus, since there are no credit qualifications, this is a great option for first-time borrowers and those trying to establish or repair credit history. You are basically borrowing against the money in your savings account to show your credit worthiness by making timely payments. As you do so you'll build your credit history, raise your credit score, and increase your likelihood of being offered more substantial and better offers for credit in the future.
